Variables

vectors

```r
x <- "Hello"
x
```

```
## [1] "Hello"
```

```r
y <- c("Hello", "everyone")
y
```

```
## [1] "Hello"    "everyone"
```

```r
# see the variables in memory
ls()
```

```
## [1] "x" "y"
```

```r
# info about variable
str(x)
```

```
##  chr "Hello"
```

```r
str(y)
```

```
##  chr [1:2] "Hello" "everyone"
```
